MongoDB

PROFILE

Hey there, I'm Aditya Singh, a Web Enthusiast, passionate about creating functional websites and web applications. I have expertise in Database management & latest web technologies such as React.js. Along with that, Java and C are my secondary programming languages which I use for competitive programming. Sometimes you'll find me collaborating with fellow developers in an open source project or learning some new frameworks!

PROJECTS

DROP - N - GO

Drop-N-Go is a web based file sharing website that enable users to share files and methods to protect them using passcode.
